Education at Andrews University has always been rooted in the concept of Christian service. Educators, administrators, nurses, agronomists, and various technicians have developed schools, hospitals, agricultural programs, and a host of other institutions and facilities that can improve the quality of life for people everywhere. Through its Affiliation and Extension Programs, Andrews University has made it possible for students to earn degrees at off-campus locations around the world. The International Development Program is one such option. The principal purpose of this program is to provide a venue for leadership training of professionals whose work responsibilities and life situation do not permit a return to full-time study at a university campus. The interdisciplinary program takes three to five years to complete and it draws on the strength of all six schools of the university. Students attend 3–4 week intensive sessions at extension sites in various locations around the world. The goal of the Program is to strengthen organizations in project management skills and administration. The ultimate goal is to enable graduates to acquire whatever capacities they need to be effective agents in assisting communities to attain well-being for its present members and their future generations.

## Administration of the Program

The off-campus International Development Program is administered by the Interdisciplinary Masters Council, an inter-school council, made up of administrators and faculty from the Affiliation & Extension Program, the College of Arts & Sciences, the School of Business Administration, the School of Education, the School of Architecture, the College of Technology, the Seventh-day Adventist Theological Seminary, and the School of Graduate Studies & Research. The council also works with the Adventist Development and Relief Agency (ADRA) and other governmental and non-governmental organizations in planning and implementing new courses and curricula and in scheduling venues for delivery of intensives. It also develops and monitors compliance with policies governing admission of students to the program, student academic progress, and admission to candidacy status.

The day-to-day administration of the program is the responsibility of the International Development Program office. Faculty guidance is provided by the IDP Coordinating Committee. These teams are headed by the Director of the International Development Program.

## Teaching Sites

The International Development Program offers its classes in multiple regions and languages around the world. Venues and languages are subject to change but currently include Canada (English), Chile (Spanish), Ghana (French and English), Italy (English), Japan (English), Kenya (English), and South Africa (English). A university campus is the preferred venue in each region for the teaching sessions.

## Admission Requirements

To be admitted to regular standing into the International Development Program, students must

- Qualify for general admission into graduate studies at Andrews University (see p. 44)
- Have a four-year baccalaureate degree or its equivalent
- Demonstrate computer literacy skills such as word processing and Internet usage

## Note:

- Access to e-mail communication is very important for participation in this program.
- The Graduate Record Examination (GRE) transcript requirement is waived for students in the overseas program.
- TOEFL is waived for students in this program.

## MSA: International Development (39–40)

The International Development emphasis is to meet the evolving needs of professionals to advance their field of interest, whether it is humanitarian work, economic development, international business, health, or other professions involved with social, cultural, and political challenges within communities. It is a program to build capacity in leadership based on principles of excellence, justice, and advocacy to embrace sustainable partnerships.

## Concentrations in International Development

Students in the International Development Program are required to complete a concentration involving a minimum of ten semester credits in a selected specialization area. The majority of the Concentration courses are completed in an independent format. This allows the student's specialization area to be uniquely tailored to suit his/her needs and professional goals. Examples of concentration topics include: Advocacy, Agro Forestry; Civil Society; Cross Cultural Relations; Development Policies of Government and Religion; Disaster Preparedness; Education; Environmental Studies; Food Security; Gender and Development; International Agriculture; Microenterprise;

NGO Policies and Operations; Peace and Conflict Resolution; Poverty Mitigation; and Public Health. A concentration area is selected in consultation with the Concentration Advisor during the first two years of study. Once a topic has been decided, a Concentration Mentor is assigned who, together with the Concentration Advisor, guides the student through the concentration requirements.

## MSA: Organizational Leadership (39–40)

The mission of the Organizational Leadership emphasis is to develop trained leadership to meet the needs of a growing church membership, a growth which will place significant demands on support organizations and other church institutions. Such leaders will develop skills based on the concepts of servant leadership, will understand and practice leadership as a collaborative process, and will demonstrate appropriate administrative skills in research, strategic approaches to program planning and evaluation, finance, communication, and ethics along with skills in a specific area of leadership. Concentrations may include church administration, community and international development, or other concentrations as requested and approved.

## Graduate Certificates

To qualify for a graduate level certificate, prospective students must already hold a terminal undergraduate degree (a bachelor's degree). The purpose of a graduate certificate is to provide specialized knowledge within a certain emphasis. The certificate involves less cost and requirements than a master's degree. The certificate program represents a focused collection of courses (15 credits) and when completed affords the student a record of academic accomplishment at the graduate level in organizational leadership or international development.
