

Student Responsibilities

STUDENT SUCCESS CENTER

In order to help their group tutor, students are expected to come prepared with questions and having reviewed the material.

Students are encouraged to communicate effectively with their group tutors about their needs. For instance, they should share information about ways they learn best and whether they need material explained more fully or in a different way.

Students are responsible to know the program policies including cancellation policies and academic integrity policies. Students may find more information on the SSC website

Students will arrive on time for tutoring.

Students should keep in mind that the group tutors do not have access to the answers for assignments and are not permitted to check answers or work directly on homework (see Homework Policy). Group tutors will guide their students towards a deeper understanding of concepts and will work towards helping the tutee to build their skills in approaching the material.
